SECTION 5 - ADDITIONAL INFORMATION

- 8** If you have an Account Executive, provide his/her name.
- 9** Fill in your Annual Operating Hours (see Section 11).
- 10** Fill in the square footage of the building located at the installation address.
- 11** Check here if you are intending to use OBF funds, if eligible, for this application.
- 12** We have included a check box for Proof of Purchase as a reminder to please include your invoice/proof of purchase with your rebate application.

SECTION 6 - ENERGY EFFICIENCY REBATE PRODUCT INFORMATION (FOR ALL NON-LIGHTING MEASURES)

- 13** Completely fill out this section for each non-lighting measure installed.
- 14** Include the account number for each installation address.
- 15** Fill in Product Code # for each measure, which you can find in the Product Catalog.
- 16** Make sure to include manufacturer name, model number, installation date and unit of measure for each measure installed.
- 17** Enter quantities and multiply by rebate per unit to get the rebate totals.
- 18** Add rebate amounts to get the total and fill in the Total Rebate Due.

SECTION 7 - TERMS AND CONDITIONS: READ, SIGN, AND DATE

- 19** Please read though this entire section completely.
- 20** Print and sign your (customer) name.
- 21** Fill in the date of signature, date of installation and the total rebate amount.
- 22** This is a reminder to keep copies for your records.

2010 Energy Efficiency Business Rebates Application

SECTION 5 ADDITIONAL INFORMATION

8 Name of Assigned Account Executive (if applicable) _____ **9** Annual Operating Hours **27** 3,569.32
*Please use the attached worksheet (Page 4) to calculate annual operating hours.

11 Check if utilizing OBF Option * Please note: Projects utilizing On-Bill Financing option must submit OBF Application prior to installation. **10** Square Footage **3,000**

12 **PROOF OF PURCHASE INCLUDED?** YES

SECTION 6 ENERGY EFFICIENCY REBATE PRODUCT INFORMATION

13 Please refer to your SDG&E bill for your Account #, Energy Efficiency Rebate Product Catalog for Product Code, Unit Measure and Rebate per Unit and your invoice/receipt for manufacturer and model number. For lighting measures, complete and submit lighting worksheet.

14 **Important Rebate Notice:** The rebate application, paid itemized invoices and the manufacturers' specification sheet must be received at San Diego Gas & Electric's Central Processing Center and postmarked no later than December 31, 2010. Equipment make and model number are required on all invoices.

SECTION 7 TERMS AND CONDITIONS: READ, SIGN, AND DATE

As a qualified San Diego Gas & Electric customer, I certify that I purchased and installed the indicated energy saving products between January 1, 2010 and December 31, 2010 for use in my business facility and not for resale. I have attached documents establishing paid proof of purchase for the items applied for on this rebate application. I agree to verification by San Diego Gas & Electric of both the sales transactions and products installation, and I certify that the information on this rebate application is true and correct, and that the tax ID provided is accurate. I understand that rebate payments are based on related energy benefits over the life of the product. I agree that if:

- I do not provide San Diego Gas & Electric with 100% of the related energy benefits specified in the rebate application for the life of the product or for a period of five (5) years from receipt of rebate, whichever is less, or
- I cease to be a distribution customer of San Diego Gas & Electric during said time period, I shall refund a prorated amount of rebate dollars to San Diego Gas & Electric during said time period, I shall refund a prorated amount of rebate dollars to San Diego Gas & Electric based on the actual time period of time for which I provided the related energy benefits as an electric customer of San Diego Gas & Electric.

I understand rebates may be modified or terminated without prior notice. I understand that this rebate application and the paid itemized invoice must be received at San Diego Gas & Electric's Central Processing Center or postmarked no later than December 31, 2010 and that all equipment must be purchased and installed prior to submission of rebate application. In the event that I choose to use the Supplemental Worksheet, I understand and agree that it shall be incorporated herein by this reference and subject to the terms and conditions set forth in this rebate application.

On Bill Financing - In the event that I qualify and participate in On-Bill Financing offered by San Diego Gas & Electric Company to obtain financing for the energy saving products listed in this rebate application, I understand that the terms and conditions of participation in On-Bill Financing will control (including, without limitation, the calculation of the rebate amount for the energy saving products listed in this rebate application) if there is any conflict between the terms and conditions applicable to participation in Energy Efficiency Business Rebates and On-Bill Financing.

In no case will the utility pay more than 100% of the actual purchase price of the items to be rebated. Energy Efficiency Business Rebates has a limited budget. If no reservation has been made, rebate applications will be accepted on a first-come, first-served basis, until allocated funds are spent, or by December 31, 2010, whichever comes first. I agree that I have not received rebates, incentives or services for the same measure(s) from another utility, state, or local program funded by the Public Purpose Program (PPP) or Public Goods Charge (PGC). I have read and understand the requirements and terms and conditions set forth in this rebate application and agree to abide by those requirements. Furthermore, I concur that I must meet all eligibility criteria in order to be paid under this program.

Lamp Disposal: It is unlawful for California customers to dispose of any lamps containing mercury in the regular weekly pick-up conducted for homes and businesses. The lamps affected by this new law include fluorescent (full size and compact), metal halide, sodium lamps, and mercury vapor lamps.

20 <i>John Smith</i> Customer Signature	21 1/1/10 Date	1/1/10 Installation Date
John Smith <small>Customer Name (please print)</small>	\$2,361.00 <small>Total Rebate Amount</small>	

22 Please make a copy of this document for your records and remember to include the lighting worksheet with the rebate application.
Proof of purchase and manufacturers specification sheets are included. Product offerings and rebate amounts are subject to change during the program term.

SECTION 8, 9, & 10 - HOW TO APPLY, ELIGIBILITY, & REQUIREMENTS

- 23** Please read through these sections completely as they contain important information and requirements regarding your Energy Efficiency Business Rebates Application including information on the new Benchmarking requirement.

2010 Energy Efficiency Business Rebates Application

SECTION 8 HOW TO APPLY

1. Reservations are not required. However, to ensure funding availability, you must reserve funds before you purchase and install equipment. Call (800) 644-6133 to reserve your funds. Reservations are held for 45 days. Please see the Energy Efficiency Business Rebates Customer Handbook for further details.
2. Benchmarking is required for all commercial business customers who participate in Energy Efficiency programs. In order to meet this requirement visit www.sdge.com/business/benchmarking or call our Energy Information Center at 800-644-6133.
3. For non-lighting products, use the Rebate Product Information table to calculate your rebate by multiplying the quantity purchased (Column A) by the rebate/unit (Column B) and record the amount in Column C. Your rebate for each product cannot exceed the price you paid for it, including installation. For lighting measures, complete and submit the lighting worksheet.
4. Use the attached Annual Hours of Operation worksheet to calculate the annual hours of operation for all rebates. The annual hours of operation will be verified through post-installation inspection by San Diego Gas & Electric.
5. Include the model number and manufacturer of the equipment on the paid, itemized invoice(s) or receipt(s). Also, please include manufacturers' specification sheets that illustrate that the criteria necessary to meet the terms and conditions in the rebate application has been met.
6. Complete, sign and date the rebate application. Make and retain a copy of all submitted documents. NOTE: The following guidelines must be adhered to in order to participate in the program:
 - Applications with any sign of liquid paper ("white out") used to change information will be returned to the customer or contractor.
 - Pre-made labels with contractor or customer information (name, address, etc.) are not accepted on rebate applications. However, a contractor stamp is acceptable, as long as there is no possibility of covering up existing information beneath the stamp.
 - If working with a factoring company, the contractor's name must appear as the payee in the "Payment Information" section of the application. However, if the contractor and customer agree that the rebate can be mailed directly to the factoring company, the factoring company address can be listed under the contractor name. See example below.

Payment Information
ABC Contractor
c/o XYZ Factoring Company
1234 Main St.
San Diego, CA 92111

Also, if the factoring company has any questions regarding rebates, they should contact the contractor directly for information. SDG&E will only supply rebate information to the customer or the contractor.

7. There are several ways to submit your rebate application:

Mail to: San Diego Gas & Electric
P.O. Box 232440
San Diego, CA 92193-2440

Electronic Fax: (619) 819-4183

E-mail: RS-ProcessingDepartment@semprautilities.com

Please make sure to include with the rebate application the paid, itemized invoice(s), manufacturer's specification sheet (s), and Annual Hours of Operation worksheet. A rebate check for qualified measures is generally mailed 45-60 days after SDG&E receives and approves a completed application including all required documentation, and verifies installation. Incomplete or incorrect applications cannot be processed and notification will be mailed out.

SECTION 9 ELIGIBILITY

- Customers eligible for the SDG&E Energy Efficiency Business Rebates Program are defined as nonresidential commercial, industrial and agricultural customers.
- The total rebate limit is \$350,000 per service account, per fuel, per calendar year. Customers with multiple service accounts for multiple projects, qualify provided that each individual service accounts or chain account customers rebates or site limit \$350,000 is not exceeded.

SECTION 10 REQUIREMENTS

- Rebate items must be installed and operational at the San Diego Gas & Electric service account location listed on the rebate application.
- All invoices or receipts must be dated between January 1, 2010 and December 31, 2010. All rebate items must be purchased and installed prior to submitting a rebate form.
- Customers cannot apply to other public goods charge rebate or incentives for the same measure.
- Lamps purchased at retail outlets do not qualify for a rebate if the price has been reduced through a utility buydown program.
- Equipment must meet the requirements and terms and conditions contained in this rebate application. All equipment must be new. Used or rebuilt equipment is not eligible for rebate. Fuel switching and new construction do not qualify. If you have questions, call (800) 644-6133 to confirm eligibility and reserve funds before purchasing and installing products. San Diego Gas & Electric reserves the right to deny payment for products that do not meet the requirements and terms and conditions and to verify installation through onsite inspection.
- Rebate payments are the property of the applicant (customer). The applicant may assign payment to a third party as outlined on the customer rebate application.
- The selection, purchase and ownership of the equipment are the sole responsibility of the customer. San Diego Gas & Electric makes no representation as to the safety, performance, reliability and/or efficiency of the equipment selected or components thereof. San Diego Gas & Electric makes no warranty, whether expressed or implied, including warranty of merchantability or fitness for a particular purpose, use or application of selected equipment or services.
- Leased equipment may be eligible for rebate if the agreement term is five years or greater.

SECTION 11 - ANNUAL OPERATION HOURS WORKSHEET

- 24 Please complete all the requested information.
- 25 Enter the daily hours of operation, then calculate the Weekly Total and the Average Hours per Day.
- 26 Enter the Total Work Days per Year (to obtain this please complete Work Days per Year section - the instructions are listed below) and multiply that by the Average Hours per Day to get your Annual Operating Hours.
- 27 Enter the Annual Operating Hours in Section 5 of the Rebate Application.
- 28 Please sign and date.

WORK DAYS PER YEAR INSTRUCTIONS:

- 29 Complete the Work Days per Year (check off the days the business is closed) and calculate the Total Days Closed per Year.
- 30 Subtract the Total Days Closed per Year from 365 to calculate the Total Work Days per Year.

2010 Energy Efficiency Business Rebates Application

**SECTION 12 - LIGHTING WORKSHEET
(FOR ALL LIGHTING MEASURES)**

- 31** Completely fill out this section for each lighting measure installed.
- 32** Fill in the quantity (# of Units) and multiply that by the rebate per unit (\$/Units) to get the Rebate Total.
- 33** Fill in the New Lamp & Ballast Wattage, Existing Lamp & Ballast Wattage, and the Existing Technology information. Abbreviations can be located in 36.

**2010 Energy Efficiency
Business Rebates Application**

This section must be completed and submitted along with application when applying for lighting products. Existing technology, new and existing lamp and ballast wattage must be completed where applicable. Use the existing technology abbreviations provided at the end of the lighting list. For varying wattage and/or technologies for the same product use the table provided at the end of the lighting list.

SECTION 12 LIGHTING WORKSHEET

Product Code	Product Description	Units	\$/Units A	"# of Units B"	Rebate Total (A x B = C)	New Lamp & Ballast Wattage	Existing Lamp & Ballast Wattage	Existing Technology (Refer to Ts&Cs for acceptable options)
Fixtures								
Compact Fluorescent Fixtures
