**NOTIFICATION OF SAN DIEGO
GAS & ELECTRIC'S REQUEST TO INCREASE
RATES FOR THE PIPELINE SAFETY
ENHANCEMENT PLAN IMPLEMENTATION
APPLICATION A.14-12-016**

On December 17, 2014, San Diego Gas & Electric Company (SDG&E®) and Southern California Gas Company (SoCalGas®) jointly filed with the California Public Utilities Commission (CPUC), their application requesting that the CPUC approve a rate increase for the implementation of the Pipeline Safety Enhancement Plan (PSEP). This application would cover the reasonableness in implementing the PSEP, and recovery of related costs recorded in the Pipeline Safety and Reliability Memorandum Accounts (PSRMA), as of June 12, 2014. SDG&E is requesting an increase of \$0.08 million starting in 2016 to cover these costs. If approved, the increase would be charged to customers for 12 months or until the costs are recovered.

The CPUC opened Rulemaking (R.)11-02-019 to adopt new safety and reliability regulations for natural gas transmission and distribution pipelines, and to orderly and cost effectively replace or pressure test all natural gas transmission pipelines, for which reliable records were not available. SDG&E and SoCalGas initiated its PSEP work and began recording costs in their PSRMAs, as directed by the CPUC in Decision (D.)12-04-021. A later CPUC Decision, D.14-06-007, determined what costs should not be charged to customers. In response, both utilities have excluded those costs from this application. That same Decision, D.14-06-007, ordered SDG&E and SoCalGas to file an application to demonstrate the reasonableness of costs incurred to justify charging customers for the costs. This application complies with that direction.

The SDG&E revenue increase requested in this application applies to gas distribution and transmission service, a methodology which was previously approved by the CPUC.

(Continued inside)

This application requests recovery of initial safety plan costs, which include the testing and replacing of natural gas pipelines; leak survey and pipeline patrol; pressure protection equipment; and project management costs that were part of SoCalGas' safety enhancement plan. Recovery of costs incurred for future safety related work will be requested in future applications.

ESTIMATED IMPACT OF THIS REQUEST ON GAS RATES

SDG&E has estimated the requested \$0.08 million increase in gas revenues under the proposed rates as shown in the tables below. The actual distribution of the increase to each customer class depends on how the CPUC ultimately decides all issues in the application.

Illustrative Proposed Rate Increase Per Customer Class:

Customer Class	Annual ¢/Therm	% Increase
Residential	0.2 ¢/Therm	0.2%
Commercial	0.1 ¢/Therm	0.5%
Natural Gas Vehicles	0.1 ¢/Therm	1.2%
Large Industrial (distribution level service)	0.1 ¢/Therm	1.4%
Large Industrial (transmission level service)	0.1 ¢/Therm	3.8%
System Total	0.1 ¢/Therm	0.4%

If the CPUC approves SDG&E's request for a gas rate increase and the proposed rate allocation method, the bill for a typical bundled residential customer using 28 therms per month would increase \$0.13, or 0.4 percent, from \$36.79 to \$36.92. Individual customer bills may differ. SDG&E is requesting that rates would become effective in January 2016.

CPUC PROCESS

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate.

After considering all proposals and evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision which may adopt SDG&E's proposal, modify it or deny it. Any CPUC Commissioner may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon at a scheduled CPUC Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record will also participate in the CPUC's proceeding to

consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at <http://ora.ca.gov/default.aspx>.
