

**Improve
the comfort
of your home and
save up to 50% on
your energy bills**

Home Upgrade

Ready to upgrade your home?

Energy Upgrade California™ Home Upgrade

This program provides assistance and incentives for home improvement projects that can enhance comfort, keep temperature and humidity levels consistent and improve indoor air quality.

With incentives ranging from \$1,000 to \$4,500, you'll offset some of the costs of making energy-efficiency improvements that can help cut your energy bills by up to 50%. The more energy you save, the faster you'll recoup the cost and keep saving money over the life of your energy-efficiency upgrades.

It's easy to get started

Simply choose from a list of BPI-certified* home performance contractors, who will:

- ▶ Help you discover where your home is losing energy and money
- ▶ Perform a comprehensive home energy assessment using the latest diagnostic equipment and energy simulation software (costs typically range between \$200 and \$500)
- ▶ Help you choose upgrades that are right for you
- ▶ Take care of the paperwork with SDG&E® so you receive your incentive
- ▶ Help you with related rebates and available financing options

*Building Performance Institute

"Our energy upgrade not only saves us money on our energy bills, but the comfort of our home has completely changed for the better," said Michael and Paula of Chula Vista. Learn about their Energy

Upgrade California Home Upgrade experience in a short video posted at sdgehomeupgrade.com.

Free energy kit

Homeowners who complete the Home Upgrade standardized assessment will receive a free energy savings kit, valued at \$300, filled with items to help you start saving energy right away.

You'll find a list of participating home performance contractors and other helpful resources at sdgehomeupgrade.com, or call **1-877-357-8241** to learn more.

Energy Upgrade California™ Home Upgrade is a statewide program that supports home improvement projects for deep energy savings. It is managed locally by investor-owned utilities and local government regional energy networks. Energy Upgrade California™ is the state's energy management initiative for residents and small businesses directed by the California Public Utilities Commission in collaboration with the California Energy Commission. Funding comes from utility customers under the auspices of the California Public Utilities Commission and is administered by the investor-owned utilities. Programs are offered on a first-come first-served basis and are effective until funding is expended or the program is discontinued. Programs may be modified or terminated without prior notice.
