

**SAN DIEGO GAS & ELECTRIC COMPANY NOTICE OF
FILING REQUESTING APPROVAL OF ITS 2013-2014
ENERGY EFFICIENCY PROGRAMS AND BUDGETS
APPLICATION NO. A.12-07-002**

AMENDED

On July 2, 2012, San Diego Gas & Electric Company (SDG&E®) filed a proposed application with the California Public Utilities Commission (CPUC) requesting approval of its 2013-2014 energy efficiency and demand response programs and budgets in accordance with Decisions 12-04-045 and 12-05-015. The proposed filing is designed to provide energy efficiency programs and services, some of which will be integrated with SDG&E's demand response programs to all SDG&E customers, help reduce their gas and electric usage and achieve the utility's energy savings and demand reduction goals. SDG&E seeks approval of energy efficiency funding in the amounts of \$94.768 million and \$101.873 million for 2013 and 2014, respectively. SDG&E also seeks approval of incremental demand response funding in the amounts of \$4.944 million and \$4.944 million for 2013 and 2014, respectively.

If the CPUC approves SDG&E's request, SDG&E will adjust rates to reflect authorization of the program budgets. Electric rates will increase by \$36.608 million in 2013 and increase by \$43.713 million in 2014, as compared to present rates to fully fund the 2013-2014 authorized energy efficiency and demand response programs. Gas rates will decrease by \$18.533 million in 2013 and decrease by \$18.533 million in 2014, as compared to present rates.

The present and proposed electric rate impacts are shown in the tables below:

EVIDENTIARY HEARINGS

The CPUC may hold Evidentiary Hearings (EHs) whereby parties of record provide testimony and are subject to cross-examination before a CPUC Administrative Law Judge (ALJ). These hearings are open to the public, but only those who are formal parties of record can participate. The CPUC has its own court reporters who will record the comments of those formal parties of record participating in the EHs. The Division of Ratepayer Advocates (DRA) is an independent arm of the CPUC, created by the Legislature to represent the interests of all utility customers throughout the state to obtain the lowest possible rates for service consistent with reliable and safe service levels. DRA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. After considering all proposals and evidence presented during the formal hearing process, the assigned ALJ will issue a proposed draft decision. When the CPUC issues a final decision on the application, it may adopt, amend or modify all or part of the ALJ's proposed decision as written. The CPUC's decision may be different than SDG&E's formal request.
